

Titebond®

THE PRO'S ADVANTAGE™

LEED v4

Compliant Products

Titebond offers a selection of products that are LEED v4 Compliant. LEED v4 is the newest version of the LEED green building standards and is the industry standard for green building construction. This allows for sustainable products to add value to the building. LEED v4 is the most up to date version that provides more flexibility and greater performance. Titebond is committed to going green and is continuously striving for ways to be a part of a more sustainable environment.
